ELEGANT SERVICES GROUP

(for Security Operations & Maintenance)

PROFILE

Elegant Services Group was founded in 1985 with an aim to provide security services to private firms, business complexes and industries by protecting their assets from threat, loss, danger and physical risk. With a sharp focus on security, we provide the required service in close cooperation with customers. To this end, business areas have been added and the service contents have also been specialized, increased and developed gradually. Our business areas are Guard Services, Alarm Systems, K-9 Service, Access Control – CCTV, ID Badging system with AFIS, Cash Handling, Security Trainings, Conference and Exhibitions etc. to name a few.

Elegant Services Group (ESG) entered the Saudi market with the acquisition of the security company, **ELEGANT FOR INDUSTRIAL SECURITY EST.** By 2001, Elegant Services Group had successfully acquired Elegant Training Bahrain to provide series of Assets Protection Courses with globally certified curriculums of ASIS International, headquartered in Alexandria, Virginia (USA). By 2006 ESG has nationwide branch offices in Riyadh, Jeddah, Yanbu, Jubail and Al-Khafji to serve and support clients of the region.

ESG is locally-focused Security Provider Company in Saudi Arabia; however it has successfully conducted APC Trainings dozen of times in its Bahrain branch office. Last year ASIS International Security Conference and Exhibition was organized in Bahrain aiming to explore and demonstrate latest security techniques and concepts to Middle East Region. Every day our security officers provide unmatched security solutions to meet the specific needs of different businesses. We are committed to providing with focused, responsive service at the local and the regional levels. Our services include patrols and inspections, armed guard, access control, K-9 Service, security console operators, alarm response, and specialized client requested services.

After years of experiences it specializes in providing professional security services to corporations and individuals, engineering services to factories, commercial complexes and various projects. The company operates in a wide diversity of industrial sectors, serving private and government clients. The company offers services including oilfields, mining, project management and security services. Additionally it has gained sound specialization on operation and maintenance as well as manpower supply. Being the sponsor and co-sponsor of ASIS International, it has completed couples of internationally recognized security trainings in the field of assets protection. ESG has developed a comprehensive package of professional, low key, proactive services covering Security, Manpower, Training along with Operations and Maintenance. Our proactive low key approach ensures project engineering, on-demand training, safety and reduces disruption and dangerous situations, stressing preparedness and contingency planning.

The company has over 950 fully trained security officers and event safety personnel available-nationally. We are very proud to be approved suppliers to Saudi Aramco, YASREF (YANBU) PETROBrahigh, Ma'aden, KJO Operation (Saudi Aramco) King Fahad Hospital, King Faisal Hospital, Abdulla Fouad Group, Schlumberger, Saudi American Bank, Saudi Arabian Amiantit Group, Al-Zamil Group to name a few. Our team takes pride in the fact that we are able to provide a complete service package to our clients without the need of recruiting outside contractors or using non-licensed, inexperienced security and event staff. The management team and employees have years of experience and specialized training in all security, project development, operations and manpower matters.

ELEGANT SERVICES GROUP

(for Security Operations & Maintenance)

ELEGANT K-9 DIVISION

The Elegant K-9 Division's mission is to protect workplaces, homes, business complexes and communities. ESG pioneers the security industry by introducing and refining specialized security solutions that provide superior value to customers of all sizes and industries. With this dedication to its mission, ESG has launched the **ELEGANT K-9 DIVISION** to support the patrol and odor detection needs of small, medium and large businesses.

ESG K-9 offers its customers the ability to employ proven, world-class security and detection measures at their facilities. This service differentiates Elegant Services Group from other security providers of the region because of its three main strengths – superior training, coverage capability and reliability.

A VALUE ADDED SECURITY SOLUTION

K-9 detection is a security solution for customers who may experience a greater level of risk from terrorism, weaponry, bomb threats, presence of narcotics or physical attacks due to the nature of their business. These customers may include: high-rise buildings, parking structures, transportation, shipping and logistics facilities. K-9 has also been called on to perform explosive detection services at highly visible sporting events, entertainment and cultural and educational venues. Elegant K-9 leadership team has over decade-long of combined experience in training, handling and canine care. Over 25 fully trained canine handler teams are ready for immediate deployment, providing unparalleled capacity and scalability to its clients. Our quality standards have been recognized and certified by a variety of organizations.

The Elegant K-9 Division creates and delivers credible and cost-effective canine solutions to private business and government agencies. Its services include:

- General security surveillance by security officer/handler
- Crowd control and criminal deterrence as a security presence
- Parking lot and building tours
- Loitering, vandalism and violence indicators observation
- Detection: narcotics and explosives materials
- Security patrol
- Cargo inspection
- Identification of suspected materials

The Elegant K-9 Division offers trained and deployable odor-detection canine/handler team for Explosives, Narcotics, Tracking, Canine and handler training.

ELEGANT ASSETS PROTECTION & TRAINING MANAMA, BAHRAIN

SATISFYING ALL YOUR SECURITY NEEDS

ELEGANT ASSETS PROTECTION & TRAINING (EAPT) was established in 2001 in order to provide security training programs and academic courses to fresh security, security professionals and law enforcement officers to effectively and safely perform their tenures. The courses we offer range from the basic security officer to advanced law enforcement training. EAPT also offers courses to private citizens who want to adopt their career as security personnel.

ELEGANT ASSETS PROTECTION & TRAINING is a fully licensed and insured private security training service company, which has been authorized by the government of Kingdom of Bahrain to provide private security services and related trainings in the Kingdom of Bahrain. It is a sister organization of a well-known security service business company of Saudi Arabia – ELEGANT SERVICES GROUP.

Our goal is to provide various security related trainings from beginners to the professionals with state-of-the-art technology to make your business site more secure. And as security needs in our society become more heightened, so does the work we do.

We have successfully completed internationally recognized security training courses couple of times e.g. ASSETS PROTECTION COURSE I and II. Some other courses are due on schedule round the year. We feel proud to let you know we are **ISO 9001:2000** certified for conducting such training courses. Our training rooms are equipped with full audio visual system and the trainers are from USA and UK who are well-versed in their respective fields as well as have got extensive experience of serving both government and private sector in their homeland.

Unlike many of the mass produced, internationally owned “Security Guard” service companies in our area, we are locally owned and operated. We strive for 100% client satisfaction by providing you with focused, articulate, well-trained security officers to meet your training requirement. We are committed to taking the time and resources for training, developing and retaining quality and content employees by offering only the best and highly demanded security training programs.

Besides it, we provide Personal Protection Specialists for short or long term protection details and also we cover your emergency needs with little or no notice. We are not your typical security company; our officers are highly trained and dedicated to provide our clients with nothing less than excellent service.

Customized Security Training for Specific Company

We produce security and safety trainings for your company based on your company-specific procedures. You will be able to train your employees en masse or individually with customized information particular to your situation. Our turn-key safety training modules emphasize real-life settings with practical preventive techniques and proven responses.

How Is Our Security Training Course Different?

Our security training courses are backed **ASIS International**, a giant of US based security training academy by more than 50 years of professional security and safety training experience. Our owners and employees have decades of professional security knowledge and real-life protection know-how. We present actual and latest cutting-edge security training technologies from the perspective experience and prepare the trainees to identify hazards before they happen. In short, we teach them how to prevent accidents and protect assets.

Commitment

Our commitment to security training spans generations. Our business background includes being owners of professional security trainer in **Saudi Aramco**. Our training staff includes Certified Protection Professionals, Certified Safety Professionals, Certified Health & Safety Engineers, plus professionals from law enforcement and other disciplines.

Integrity

We have driven millions of miles in security training and courses manipulation. We incorporate knowledgeable hand-outs and broadcast-grade production to maintain a high level of quality in every security training module. We present security information from the security guard's point of view in a way proven to hold a guard's attention and to teach security techniques without preaching.

We are sensitive to the needs and job stresses of security personnel. Our training modules relay information they need and can put to use today. Our security training also tackles specific stressful situations head-on and offers proven strategies to reduce stress and manage potential hazards. Each security training module is professionally produced using state-of-the-art equipment and experienced professionals. We maintain total control of each security training module from start to finish.

Recognizable Speakers

Elegant Assets Protection & Training enlists recognizable security experts, law enforcement professionals and well-known media personalities to communicate experience-based security information. Our security training comes to you from individuals you trust, such as police commanders, ex-troopers, Certified Protection Professionals (CPP) and even NYPD Blue (USA). Our objective is to present security information you will remember and use at your best. We are going to launch a new generation of security training courses by using actual real-life situations. Using trusted security and law enforcement professionals as speakers emphasizes that our security training material has been researched, tested and proven to protect assets preventing accidents and other hazards.

Assets Protection Course Series (APC I, II & II)

Assets Protection Course Series provides security professionals the broad based knowledge to keep their personnel and assets protection a step ahead of today's risks and threats. From beginning through advanced – the **APC** courses expose you to proven methods and techniques to give you a solid understanding of all aspects of assets protection. From **Concepts & Methods** to **Functional Management**, the **APC** courses deliver proven methods and techniques that give you a solid foundation in all aspects of assets protection. **APC I** confers with **Concepts & Methods** of modern security trend. Rooted in decades of experience, this comprehensive security course helps you build a solid career in assets protection. Needless to say your facility requires more than just cosmetic security. **APC I** covers about a substantive approach that addresses equipment selection, policy development, staff training, and crisis management. Today's security programs must balance high threat levels and low budget levels. Meeting this challenge requires initiatives that are comprehensive as well as collaborative.

Once you've mastered the fundamentals of assets protection, you'll need to learn how to develop effective solutions, how to defend terrorism, countermeasures to be taken for security and responses to the security challenges you face. All these matters are included in **APC II** known as **Practical Application**. This practical, hands-on course is facilitated and presented by some of the most experienced professionals in the security industry. Practical Applications continues the security principles presented in APC I-Concepts and Methods, but now you'll explore universally-recognized problems and discuss practical solutions to real-life situations. You'll get the vital information you need for security planning and meeting operational requirements. Join industry leaders in discussing the latest crime detection, prevention, and interrogation techniques, while reviewing the importance of relevant laws and legal issues, including recent changes to the latest security phenomenon.

APC III comprises with **Functional Management**. The capstone of the APC series concentrates on building leaders in the security industry. Build practical applications into efficient programs and enhance your ability to develop and manage cost-justified and performance-based security programs for complex business risk environments. An in-depth company case study serves as the basis for discussion throughout the program modules. This program format is the primary method of instruction used at leading graduate business schools. Sessions also encompass relevant lecture topics, case study analysis, and real-life business applications.
